

Employment Opportunity in Villebois, Quebec

Environmental Technician / Operator – Full time Position

Denison Environmental Services (DES), a division of Denison Mines Inc., (Elliot Lake ISO 9001:2008 registered) is a nationally recognized leader in the supply of mine care and maintenance (C&M), mine-site decommissioning and consulting services across Canada. DES is seeking a full time Environmental Technician/Operator for the Selbaie Mines project. The Selbaie site is a former copper-zinc mine located north of Rouyn Noranda, QC. The regular work week for this position is four (4) days of ten (10) hours per day for the week. There is also a travel allowance from Villebois to the Selbaie site.

Denison offers an attractive compensation and benefits package for salaried employees, which includes health and dental coverage, life insurance, a registered employee/employer savings plan and bonus plan.

The successful candidate will be Bilingual, in both written and spoken French and English.

Roles and responsibilities are as but not limited to the following:

- Environmental Technician component of the work requires computer skills, safe work practices and diligent performance of monitoring tasks including environmental sampling.
- Ability to operate craft such as ATV, snow machine and boats as a large portion of the monitoring work is outdoors
- Required to physically carry out the tasks assigned
- Required to plan and execute routine tasks with minimal guidance.
- Knowledgeable of maintenance, operation and monitoring of the water treatment processes.
- Support the maintenance plan and interacting with the lime slaker and various water management systems on site.
