

Community Relations Manager

OUR COMPANY:

Denison Mines Corp. ("Denison") is a uranium exploration and development company with interests focused in the Athabasca Basin region of northern Saskatchewan. Denison is also engaged in mine decommissioning and environmental services through its Denison Environmental Services division and is the manager of Uranium Participation Corp., a publicly traded company which invests in uranium oxide and uranium hexafluoride.

On September 24, 2018 Denison announced the Prefeasibility Study (PFS) for the Wheeler River Project. The PFS incorporates new and innovative approaches to mining in the Athabasca Basin by adoption of In-situ Recovery (ISR) techniques for the high-grade Phoenix uranium deposit. The selection of ISR mining for the Phoenix deposit is a potentially defining moment for Denison as we work to bring the world's lowest cost uranium mining method to the jurisdiction hosting the world's highest-grade uranium deposits. The result is a truly exciting project that has the potential to be the lowest cost uranium mining operation in the world and one of the most environmentally friendly mining operations globally.

With the result of the PFS, Denison is building the project development team and is looking to attract top candidates who want to be a part of our ambitious development story.

THE ROLE:

The position of **Community Relations Manager** will be accountable for developing and implementing a strategy to obtain and maintain long-term social acceptance, as well as enhancing the positive aspects and impacts for stakeholders, throughout the mining life cycle of the Wheeler River project. In this role, you will be responsible for continuing to build positive relationships with external stakeholders and developing programs and systems to help achieve company commitments and objectives. You will liaise with community leaders as well as interested individuals and business owners, and facilitate positive working relationships. This position will report to the Vice President Project Development.

This role will be based in Saskatoon, Saskatchewan and will require frequent travel to the project site and communities located throughout Saskatchewan.

This role is being offered as a full-time position. All applicants must be eligible to work in Canada. Denison offers a competitive compensation and Benefits Package, including Health and Dental coverage, Life insurance, Employee Assistance program, Bonus program and a Retirement Savings plan.

OUR IDEAL CANDIDATE:

You have exemplary communication skills and a proven ability to create engaging relationships with multiple internal and external stakeholders through trust, respect, accountability, teamwork and effective communication. You are a well-rounded independent candidate with a solid track record of success. You also have the following:

- Post secondary degree in communications, social development, sociology or related field;
- Minimum of 7 years practical experience;
- Experience in the mining industry with knowledge of the mining lifecycle is strongly preferred;
- Demonstrated experience in negotiating and problem solving;
- Demonstrated ability to function in high stress environments;
- Skilled at delivering clear communication of complex issues (i.e. regulatory requirements, work progress, strategic directions, etc.) to key stakeholders and project teams.

Community Relations Manager

YOUR RESPONSIBILITIES:

- Lead efforts to continue to build and foster positive working relationships with stakeholder groups on behalf of Denison;
- Act as spokesperson for Denison in meetings with communities, government agencies, and other external stakeholders;
- Understand the opportunities, challenges, trends, issues and risks in the external landscape through stakeholder engagement;
- Lead internal Denison efforts to ensure a strong understanding of issues and public sentiment, and to identify emerging issues and develop cohesive strategies;
- Develop effective stakeholder reporting through provision of accurate communication and reports;
- Work closely with the Technical Services team to support project planning and permitting processes;
- Assist in stakeholder needs assessment and administration of Denison community relations programs;
- Prepare, monitor and control the community relations budget and make decisions regarding expenditures while managing costs in an effective manner;
- Collaborate and work effectively with internal departments including: Environment, Safety, HR, Accounting, Procurement, Investor relations and other functional groups.

Interested applicants should submit their resume with cover letter to jobs.sk@denisonmines.com. All applicants must be eligible to work in Canada. Please include the job title for which you are applying in the subject line of your email application. We thank all applicants for their interest; however, only those candidates selected for interviews will be contacted.
