

Maintenance Superintendent

OUR COMPANY:

Denison Mines Corp. (“Denison”) is a uranium exploration and development company with project interests in the Athabasca Basin region of northern Saskatchewan and office operations based in Saskatoon, Saskatchewan. Denison is a public company listed on the NYSE American and TSX stock exchanges, and is also engaged in mine care and maintenance for decommissioned mine sites through its Closed Mines group based in Elliot Lake, Ontario. Denison’s corporate office is location in Toronto.

Denison’s Closed Mines Division, a division of Denison Mines Inc. (DMI), is a trusted industry leader in care and maintenance of closed mines.

THE ROLE:

The **Maintenance Superintendent** is responsible to ensure all required maintenance activities are planned and scheduled in a manner that maximizes the efficiency of the assigned maintenance crews. This role will ensure the reliability of the operational and mobile equipment as well as manage activities for the maintenance and repair of buildings, landscapes, and offices. Occasional supervision of major projects may be required as well as on call response to emergency situations. Leadership in terms of process and people with an effective and positive working relationship with the operations group. Duties include tracking expenses, reporting progress, and assigning schedules.

This role is being offered as a full-time position and will be based in Elliot Lake, Ontario. All applicants must be eligible to work in Canada. Denison offers a competitive compensation and benefits package, including health and dental coverage, life insurance, employee assistance program, short-term incentive pay (STIP), long-term incentive pay (LTIP), and a retirement savings plan.

The successful candidate will be required to follow Denison's health and safety policies and procedures, including the Covid-19 Work Safe plan, and the Company's Covid-19 vaccination protocol. All current staff who will attend at Denison's offices, warehouses, field sites and operations are required to be vaccinated. New staff will be required to be fully vaccinated at their commencement of employment and/or prior to attending any facilities.

OUR IDEAL CANDIDATE:

You are hard-working and dedicated to performing work in a safe manner. You are flexible and versatile and able to confidently address environmental, regulatory, safety, supervision, and maintenance issues. Familiarity with structured planning and an interest in continual improvement considered assets. In addition, you possess the following skills and attributes:

- Commitment to safety, including a commitment to a positive safety culture
- Preference given to candidates with technical degrees, diplomas, and/or PMP certification
- 7-10 years related operations or maintenance experience; or equivalent combination of education and experience
- Previous experience supervising other employees is required
- Must have excellent oral and written communication, interpersonal, organizational and conflict resolution skills
- Must be team oriented and possess the ability to develop and foster a team environment
- Knowledgeable in relevant computer applications/software and proficient in their use, e.g. MS Office, EQuIS
- Proficiency in Fluke’s E-Maint (CMMS) an asset

- Strong organizational and time management skills /ability to continually prioritize workload and respond to top priorities with a sense of urgency
- Ability to shift between longer-term planning and short-term, detail-oriented tasks as required; effectively translating planning into execution and provides the vision for the crew
