

## Camp Services Lead

### OUR COMPANY:

Denison Mines Corp. ("Denison") is a public company listed on the NYSE American and TSX stock exchanges focused on the advancement of a portfolio of uranium exploration and development project interests in the Athabasca Basin region of northern Saskatchewan. Denison is also responsible for mine care and maintenance of its decommissioned mine sites in Elliot Lake, Ontario.

Denison's flagship project is the Wheeler River Uranium Project (the "Project"), which is the largest undeveloped uranium mining project in the infrastructure-rich eastern portion of the Athabasca Basin region in northern Saskatchewan. The Project is located approximately 35 km north-northeast of Cameco's Key Lake Operation and 35 km southwest of Cameco's McArthur River Operation in the eastern portion of the Athabasca Basin. The Project is accessible by vehicle and is located about 5 km west of Highway 914.

In August 2023, Denison filed (i) the Feasibility Study ("Phoenix FS") completed for In-Situ Recovery ("ISR") mining of the high-grade Phoenix uranium deposit ("Phoenix") and (ii) a cost update to the 2018 Pre-Feasibility Study for conventional underground mining of the basement-hosted Gryphon uranium deposit ("Gryphon"). With the successful completion of the Phoenix FS, Denison has advanced the planned Phoenix ISR project through the technical de-risking process and has already commenced the first phases of project execution. Concurrently, Denison is also advancing the environmental assessment ("EA") process, which is a critical step to securing the approvals necessary to develop and operate a mine in Canada.

The planned Phoenix ISR operation is on track to become the first ISR uranium mining operation in Canada, and has the potential to be one of the lowest-cost and most environmentally sustainable uranium mining operations in the world.

Denison is looking to attract top candidates who want to be a part of our ambitious development story.

### THE ROLE:

Denison is looking to fill the role of **Camp Services Lead** to engage with the Project's Execution and Exploration teams, as the company progresses towards the future development of an ISR uranium mining operation. The primary responsibility of the position is to oversee daily camp operations and act as the key liaison between the camp staff, contractors, and Denison's Saskatoon Office. The Camp Services Lead will work closely with kitchen staff; maintenance, health and safety, and regulatory personnel; and office administration.

The role is being offered as a temporary position starting on or about **January 15, 2024**, for an approximate one (1) year term, with the possibility of extension.

The position is based at Denison's Wheeler River Project site, working on a 2-week on / 2-week off rotation. The successful candidate will be responsible for arranging their own travel to a designated pick-up point en-route from Denison's Saskatoon office to the Project site. Denison will provide board and lodging while at the Project site.

***All applicants must be eligible to work in Canada. Denison offers a competitive compensation and benefits package.***

***Denison is committed to providing employment opportunities for Indigenous people and members of the communities near where we operate, and encourage applicants who are Indigenous and / or residents of those communities to apply and to voluntarily self-identify the appropriate information in their application details.***

### OUR IDEAL CANDIDATE:

## Camp Services Lead

You have direct experience in remote camp locations and/or overseeing camp operations. You are a well-rounded candidate with good organizational skills, a strong sense of responsibility and demonstrated ability to work in a team environment. You are a critical thinker who exhibits the ability to evaluate and resolve complex problems. In addition, you have:

- 3-5 years of relevant work experience (e.g., in mining industry) working in a supervisor role at a camp setting
- Experience working on a rotational schedule in a remote camp environment
- Experience working in the Athabasca Basin on uranium exploration or mining operations is an asset
- Valid driver's license
- Proficiency with Microsoft Office Enterprise Software, including Word, Excel, and Outlook
- Ability to interact successfully with all levels of staff, contractors, and vendors
- Valid First Aid certification
- Basic knowledge of carpentry, electrical, plumbing, and mechanical

### YOUR RESPONSIBILITIES:

- Provide supervision, assistance, and direction to staff regarding all matters of camp operations, including but not limited to general site/facilities/equipment maintenance and upkeep, staff management and scheduling, and administration of paperwork;
  - Maintains site, facilities, and equipment in working order;
  - Provides oversight and direction to camp staff (kitchen, cleaning, maintenance) in accordance with Denison's policies and procedures;
  - Oversees the orientation of all visitors, vendors, and contractors, including arrangement of accommodations and meals;
  - Maintains an accurate record of camp occupants on a daily basis;
  - Keeps inventory of equipment and camp supplies and is responsible for liaising with Denison's Procurement Lead;
  - Completes all required reporting and inspections according to daily, weekly and monthly timelines;
  - Plan, evaluate, and improve the efficiency of business processes and procedures to enhance speed, quality, efficiency, and output;
  - Perform other duties as directed by Denison's Saskatoon office.
- Enforce Denison's Health Safety Procedures, including PPE, masking, and support radiation safety programs and safety audits, including:
  - Ongoing site hazards identification and risk mitigation;
  - Supports resolution of audit findings;
  - Coordinates with the site medic.
- Work with the Denison Leads to understand various field program requirements, supporting logistics and procurement activities:
  - Coordinate the delivery and inventorying of materials and equipment and/or performance of services;
  - Review requests for goods and services to maximize efficiency in terms of price, delivery, and suitability;
- Reviews, understands, and supports the adherence of all contractors and staff to site and project permits.

***Interested applicants should submit their resume with cover letter to [jobs.sk@denisonmines.com](mailto:jobs.sk@denisonmines.com). All applicants must be eligible to work in Canada. Please include the job title for which you are applying in the subject line of your email application. We thank all applicants for their interest; however, only those candidates selected for interviews will be contacted.***
